Middot - Jewish Values

The following is a list of Jewish values in Hebrew and English. Encourage your students to learn the words in Hebrew and their meanings. Then, supply them with these prompts:

- For each value, think of someone you know who demonstrates that value.
- For each value, develop an action plan of how you could demonstrate that value.
- Interview your parents. Which of these values do they hold as a core belief?
- Assign one value for each month. During each month, concentrate on practicing that value with your family.

מדות Jewish Values Chart
